Northern tip
of
Madagascar

Bora Bora with coral reefs (small
one),

Uturoa (big one)

An aerial photograph of a rugged mountain range, likely the Andes. The terrain is characterized by deep, winding valleys and steep, rocky slopes. A small, bright green lake, identified as Laguna Verdi, is situated in a valley in the lower-middle portion of the image. The overall color palette is dominated by earthy browns, greys, and greens, with the green of the lake providing a sharp contrast.

Earth observations of the Andes
Mountains,

Laguna Verdi lake

Earth limb with sunglint, sunrise,
over South Atlantique,
North east of Rio de Janeiro, Brasil

Earth limb with sunglint over North Madagascar, sunrise

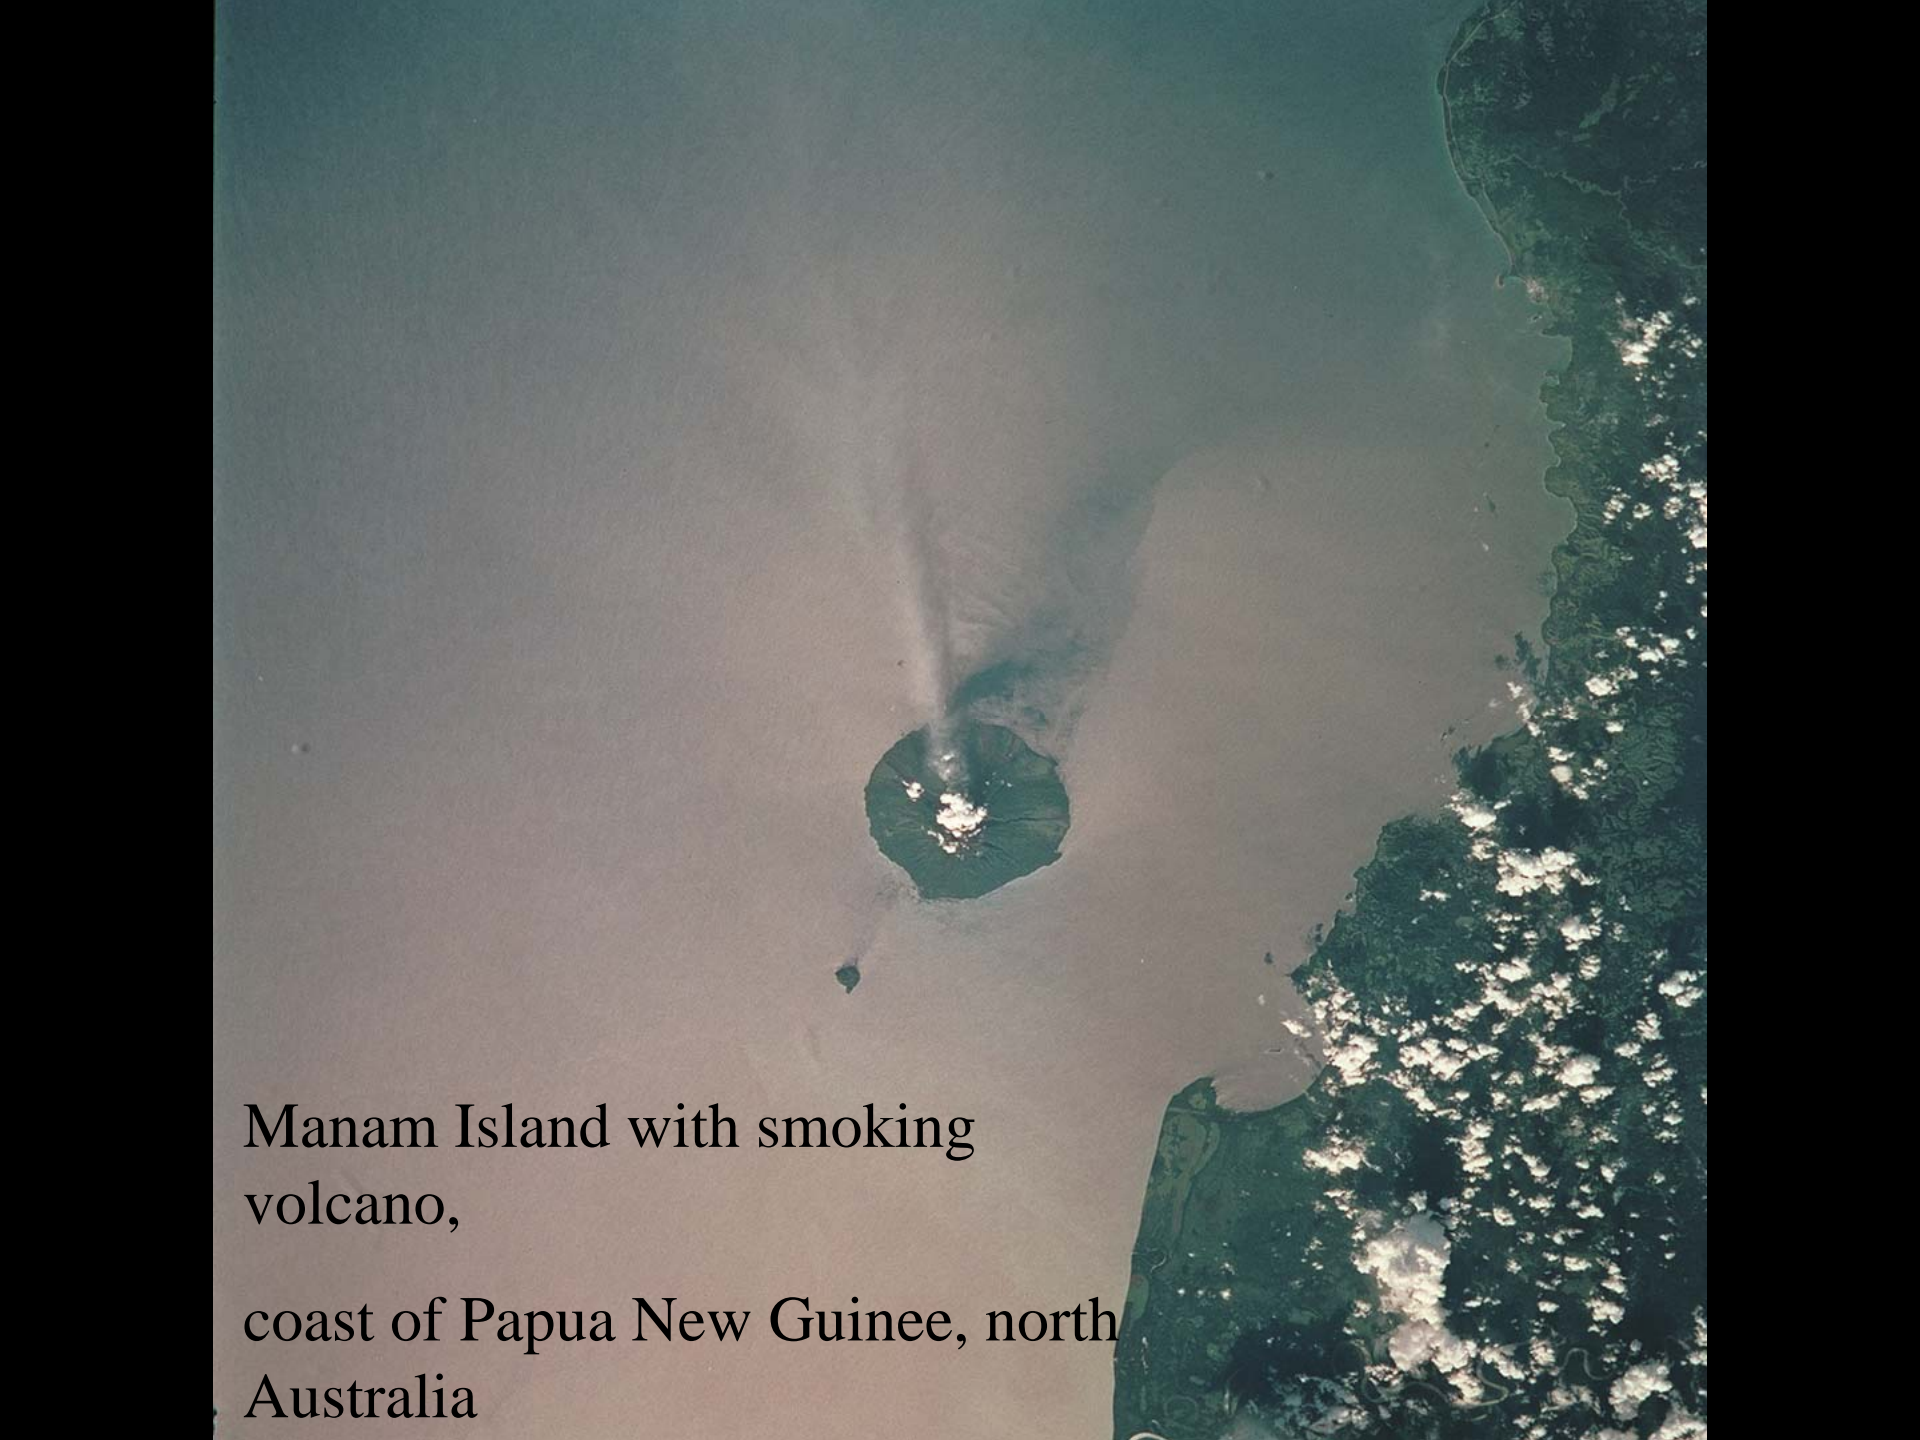

Fires, Northern island of Borneo,
Coast of Sarawak, province
of Malesia, Sabu city

Melville Island, Australia with fires, North Australia

An aerial photograph showing a small, dark, circular island in the center of a large body of water. A thick plume of white smoke or ash rises from the island, spreading outwards. To the right, a larger landmass is visible, covered in dense green vegetation and partially obscured by white clouds. The water is a pale, hazy blue-green color.

Manam Island with smoking
volcano,
coast of Papua New Guinee, north
Australia

Perito Moreno Glacier, Argentina

Spain

Strait of Gibraltar
